

Mohamed Abdelbaset Abdelsalam

Frontend Developer | Cairo | 01064047214 | mohamedabdelbasset265@gmail.com

Portfolio: [View Portfolio](#) | GitHub: [View GitHub](#)

Objective

Creative and detail-driven Frontend Developer skilled in React.js, Next.js, and Tailwind CSS, delivering modern, responsive, and user-focused web applications. With a Bachelor of Law background, I bring strong analytical thinking, problem-solving, and discipline to software development. Passionate about combining technical expertise and design creativity to craft seamless user experiences.

Experience

Frontend Developer – AutoMechanic Tech | Aug 2024 – Present

- Built and maintained responsive, SEO-friendly web interfaces with Next.js and Tailwind CSS, enhancing site speed and user engagement.
- Contributed to the company's official platform, implementing scalable and maintainable solutions.
- Delivered features inspired by project work such as E-commerce components (product catalog, shopping cart, checkout) and Note App CRUD functionalities with validation and responsive UI.

Frontend Developer – Apex | Mar 2024 – May 2024

- Developed reusable UI components with React.js and Next.js to support rapid product delivery.
- Collaborated with designers and backend developers to create modern, user-friendly applications.
- Designed RTL-friendly sections for a corporate site, ensuring multilingual accessibility and cross-platform performance.

Core Skills

Frontend: HTML5, CSS3, Bootstrap 5, Tailwind CSS, SASS

Programming: JavaScript (ES6+), TypeScript, jQuery, Ajax

Frameworks: React.js, Next.js
