PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of professional experience delivering production-grade, bilingual web applications for international clients across Egypt and the Gulf. Specialised in React.js, Next.js, TypeScript, and Tailwind CSS v4, with a strong consulting mindset: translating complex client requirements into scalable, maintainable, and polished digital products. Experienced working in Agile environments, participating in code reviews, and managing full project delivery — from architecture through DNS configuration and production deployment. Law background sharpens analytical thinking and client communication in cross-functional team settings.

PROFESSIONAL EXPERIENCE

Frontend Developer · **AutoMechanic Tech** · Cairo

Aug 2024 – Present

- Built and maintained Next.js production platform using TypeScript and Tailwind CSS, improving page speed and SEO scores across all core pages.
- Delivered end-to-end e-commerce module — product catalog, shopping cart, checkout — with real-time form validation and full mobile responsiveness.
- Implemented Framer Motion animation system: orchestrated page transitions, scroll-triggered reveals, and micro-interactions for a polished UX.
- Maintained code quality via Jest and Testing Library unit tests; enforced clean code standards through Agile sprints, peer code reviews, Git branching workflows, and Pull Requests.
- Collaborated cross-functionally with designers and backend developers, consistently delivering features on time and to client specification.

Frontend Developer · **Apex** · Cairo

Mar 2024 – May 2024

- Built reusable component library with React.js, Next.js, and Vue.js, reducing development time across multiple concurrent client projects.
- Designed and implemented RTL/LTR bilingual UI sections for a corporate site — ensuring layout integrity, multilingual accessibility, and cross-platform consistency.
- Collaborated directly with design and backend teams to bridge design-to-code with pixel-perfect precision under tight delivery timelines.

KEY PROJECTS

Kayan Avenue Properties [↗ Live](#) · Next.js 15 · TypeScript · Tailwind CSS v4 · Framer Motion · Resend · i18n RTL/LTR

- Bilingual (EN/AR) luxury real estate site for a Dubai client — full RTL/LTR switching via React Context i18n, Framer Motion animations, and Resend API for live email delivery.
- Managed end-to-end production setup: domain registration, DNS records configuration, and Vercel deployment — delivering a fully operational client platform.

Real-Time Order Tracker [↗ Live](#) · Next.js · TypeScript · Upstash Redis · REST APIs · Framer Motion

- High-traffic dashboard handling thousands of daily requests via debounced API calls, Upstash Redis caching, and optimised re-render control.
- Live polling with automatic halt on completion and Page Visibility API integration — eliminating redundant server load. Supports two coexisting order URL formats with smart resolution logic.

Online Fitness Coach Platform [↗ Live](#) · Next.js · TypeScript · Tailwind CSS · Framer Motion · SEO

- Advanced SEO implementation: meta tags, Open Graph, JSON-LD schema, and dynamic sitemap — achieving strong Google Rich Results scores.
- Fully responsive with cross-browser compatibility, optimised Lighthouse scores, and a polished Framer Motion animation system.
